
About Us...

Mapmakers Alaska provides hard copy maps and complete GIS projects of active and historic exploration and development areas for the Alaska oil and gas industry.

Lease, well, unit, facilities, land status and sale tract data with tract-specific mitigation stipulations and drilling incentives, set on top of comprehensive base maps, have become the standard for Alaska oil & gas.

Our custom maps, on paper or in digital format, are proven and convincing exhibits in board rooms, "war" rooms and court rooms. Numerous publications for environ-

Mapmakers Alaska office in downtown Palmer, Alaska.

mental, historic and scientific assessments have enhanced their content with our maps and graph-

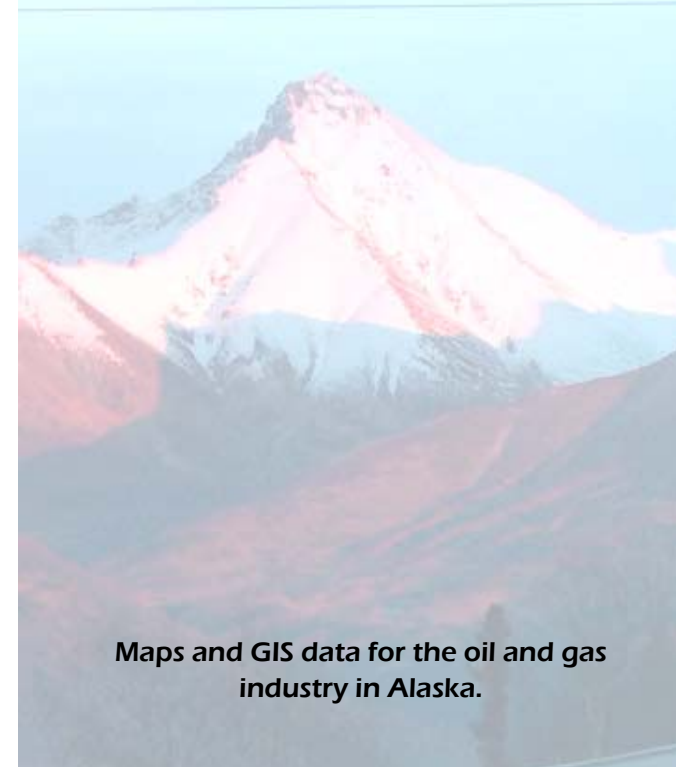

ics.

Maps and GIS data for the oil and gas industry in Alaska.

Maps and GIS data for the oil and gas industry in Alaska.

GIS-Alaska Oil & Gas® by subscription is an efficient means to keep your company current on the ever-changing lease and well activities. A combination of project files and hard-copy maps for any individual, or all of the active areas in Alaska, keep you on track with your peers and ahead of the competition.

Subscriptions include quarterly and incremental monthly updates, depending on industry activity, periodic activity maps, files and graphics for both ArcView/ArcMap and AutoCAD Map. We provides technical support free of charge and training sessions by appointment.

Mapmakers Alaska is always open to comments, questions and suggestions.

We look forward to providing you with the maps and information you need!
